

Business Technology Assessment

Is something not quite right with your system, but you're not sure where to start looking? Do you sense that something's wrong but can't put your finger on it? Do you need a second opinion to find out what's right and wrong?

NDS's Technology Assessment is just what you need!

Small Business Technology Assessment Includes Four Elements

- Preliminary Fact-Finding Conference Call (1/2 hour)
- On-site Consultation/Walk Through (2 hours)
- Summary of Findings Report (3-4 pages) — see below
- Follow-up Conference Call (1/2 hour)

The Deliverables Summary of Findings Report

1. **HIGH LEVEL OBJECTIVES/GOALS**
2. **FINDINGS** (Definition of the Problem)
3. **PRELIMINARY REQUIREMENTS AND NEEDS ANALYSIS** -
Desktop/Server Application and Operating Systems, Adequacy of Existing Hardware, Data Security, Telecommunications Lines and Interfaces, Internet Resources (Web and Email), Organizational Issues
4. **DEPENDENCIES/CONTINGENCIES**
5. **PRELIMINARY RECOMMENDATIONS**
6. **BUDGET ESTIMATES FOR NEXT STEPS:** Urgent Desktop/Server versus Non-Urgent Desktop/Servers
7. **SINGLE POINT OF CONTACT**

Network Data Services has far exceeded our expectations of what a Technology Partner should be. They have WOW'd us from day one!
