

Hosted Microsoft™ Exchange

Enterprise-class reliability, performance and value for a low monthly cost. No Servers, No Downtime, No IT Hassles.

Technology as a Service (TaaS)

Network Data Services provides organizations of any size the ability to purchase Hosted Microsoft™ Exchange services just as they would purchase electricity from a utility company. Pay just for what you use.

With Network Data Services:

- Your company pays only for the services you use each month.
- Your company is not tied into purchasing and maintaining expensive servers or licenses.
- Future software and service upgrades are included in the low monthly service fee.
- Advanced SPAM filtering is included with Exchange Hosting solution.

Complete NDS Hosted Exchange Package* Includes:

- Complete Microsoft™ Hosted Exchange 2007 mailbox
- 99.9% uptime guarantee SLA
- One GB‡ of storage per mailbox (for Email, Calendars, Contacts, etc) standard
- Secure Nightly Backups
